Languages: JavaScript, HTML, CSS, SQL, Python

Database Systems: Relational & Non-Relational

Tools: Node, Express, Mongoose, React

WORK EXPERIENCE

2014 – 2015

Netfortris

Enterprise Account Manager

Georgetown, Washington

I managed large scale accounts for a secure cloud-based telecommunications company on a national level.

- Work included fielding technical and account questions, drafting customer facing documents, and reporting to internal executive and management teams.
- Offered a promotion to team lead but left the company to pursue other opportunities.

2011

The Rice Company

Brand Ambassador

Seattle, Washington

I was recruited and joined the “U Crew Team” to represent Microsoft across the campus of The University of Washington.

- We demonstrated Microsoft products, notably the new release of Windows 7 and Microsoft Office.
